CECON Works for You to Find the Expert Needed to Win Your Case

About The CECON Group

For more than 26 years, CECON has helped attorneys win their cases by rapidly providing technical specialists and consultants best matched to the attorneys' case strategy.

CECON's Project Managers are technically trained and uniquely qualified to find the perfect expert for legal cases. We quickly understand your needs and priorities.

With almost 1200 experts in our network, the expert you need is often in our group. If the exact specialist is not in our group, we leverage our network to find other consultants with the expertise perfect for your case.

There is no cost for our consultant search and introduction. We work as your partner to find the best experts available. Charges for work accrue only after the consultant is engaged.

Attorneys Ask for CECON Assistance in Such Areas As:

- **Biotechnology** – Bio Processing, Fermentation, Molecular Biology.
- **Chemical Toxicology**
- **Compliance** – FDA, OSHA, EPA, REACH, TOSCA.
- **Fire** – Dust and Chemical Explosion, Ignition Sources, Propents, Accident Investigation.
- **Food** – Processing, Formulation, Packaging.
- **Hazardous Materials** – Chemical Spills, Contamination, Safe Handling, OSHA, Workplace Standards, Fires & Explosions.
- **Material Analysis** – Material and Part Testing, Failure Analysis.
- **Materials** – Chemicals, Polymers, Composites, Metals, Shapes, Part Forming Technology.
- **Medical Devices** – 510k, Biomaterials, Mechanical Evaluation, Replacement Materials, Registration.
- **Patents** – Defense, Prosecution, Analysis, Valuation.
- **Pharmaceutical** – Medicinal Chemistry, Compliance, GLC/GMC, Controlled Release, Drug Packaging.
- **Process Engineering** – Chemical Processing, Mechanical Design, Production Efficiency.
- **Products Liability**
- **Safety** – Audits, Best Practices, Education, Investigation.
- **Technical Due Diligence** – Investment, Venture Capital, Risk Assessment, Insurance Investigations.
- **Technical Forensic Investigation** – Failure Mode and Effects Analysis (FMEA).

Leveraging the CECON Consulting Network = BEST Expert Witness for the Attorney

- **Goal:** Find the exact consultant that meets the attorney's expert witness qualifications.
- **Concept:** Ask CECON network consultants to refer colleagues that match the attorney's requirements.
- **How:** CECON accesses a network expert close to the subject matter, but not an exact fit.
- **Recommend:** Consultant recommends a colleague closer to the target, or an exact fit. The process continues.
- **Incentive:** CECON Consultants are offered incentives to identify technical colleagues that meet target needs.
- **Win-Win:** Attorney gets the best expert; Consultant gets a referral fee; CECON gets a new consultant and project.
